Way of Life!

THE SUZUKI VITARA

Way of Life!

TAKE A **DRIVE** OUT OF THE ORDINARY

The Suzuki Vitara is a beautiful looking car, but it doesn't just rely on its stunning design and rugged good looks as there are some pretty impressive features as well.

The ALLGRIP 4-wheel Drive* system reacts to any terrain and the Radar Brake Support** senses other vehicles on the road and brakes automatically if necessary. There's also a voice controlled audio and navigation system†. Ordinary it isn't.

AS GOOD AS IT LOOKS

The Vitara has it all and when you see this stunning SUV in the flesh you'll realise this is a vehicle that means business. You'll love the drive and you'll love the envious looks you get.

► Personalise with white front grille

► LED Projector Headlamps*

► LED daytime running lights

► Personalise with 'Mojave' alloy wheels and Urban pack

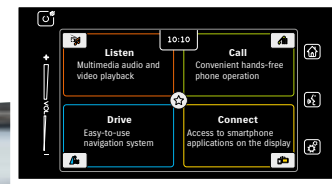

TAKE A LOOK AROUND

Once inside you'll notice that the interior has had just as much thought put into it as the rest of the Vitara. The high driving position, generous legroom, and the beautifully designed dashboard, with its intelligent styling, give you the comfort and confidence you need on the road. On top of that there's masses of luggage space so there really is nothing holding you back.

THE FUTURE IS HERE

The Vitara has a Bluetooth hands-free phone connection and DAB digital radio as standard, but if tech's your thing then there's a voice-controlled audio and navigation system that links to your smartphone*, adaptive cruise control* and a rear parking camera†. Cutting-edge car. Cutting-edge technology.

GO ANYWHERE

Designing 4x4 vehicles for over 40 years has taught us a lot and when you experience the Vitara you'll see (and feel) exactly what we mean.

The optional ALLGRIP 4-wheel Drive System* has been developed to help you take control of the road. ALLGRIP adapts to any condition whilst optimising fuel efficiency and safety.

Auto mode prioritises front-wheel drive for optimum fuel efficiency in everyday conditions, switching to 4WD if wheelspin is detected.

Sport mode will actively engage 4WD based on accelerator inputs, to make driving more responsive along country lanes.

Snow mode is your answer to powder, ice, rain and mud – giving crucial traction and stability when the conditions demand it.

Lock mode engages permanent 4WD to help you drive out of deep snow or mud.

WITH **POWER** COMES RESPONSIBILITY

When you have an engine that provides plenty of power you also want it to maximise fuel efficiency and minimise emissions. The Vitara's petrol and diesel engines do exactly that, which means you can focus on enjoying the amazing ride.

SAFETY COUNTS

The Vitara is equipped with some seriously effective safety protection. There's a total of 7 airbags as well as intelligent safety technology including ESP® (Electronic Stability Program) and Radar Brake support*. This technology uses a front mounted radar to detect other vehicles or obstacles ahead and brakes automatically to help avoid or reduce damage from a collision.

These features are just part of the reason why the Vitara has been awarded a Euro NCAP 5-star safety rating.
